Pursuant to the management contract entered on 20th June 2003, the Group will receive a guaranteed annual net rental income in respect of the Elizabeth House Commercial Podium of HK\$78 million for three years commencing from 26th June 2003.

Contribution from property development was derived from Besteam Group. As a consequence of the Group Reorganisation, the turnover and its segment results decreased by approximately 86% and 88% respectively. On the other hand, contribution from security investment was insignificant to the Group for both periods.

BUSINESS REVIEW AND OUTLOOK

During the period under review, Hong Kong's economy has been on the road of recovery. Stock prices went high and so have other market activities in general. Most importantly, consumer confidence has shown signs of improvement and people appear to be willing to spend again. The relaxation of travel restrictions for PRC nationals to enter Hong Kong has also been helpful in making Hong Kong's restaurants and shops busier in some commercial and retails districts such as the Causeway Bay where the Company's principal investment property, Elizabeth House Commercial Podium ("E-House"), is located. As a result, the rental income from E-House has been improving and has reached the level of pre-SARS earlier this year because most of the vacant spaces have been taken up by new tenants and monthly rentals have been received in a timely fashion.

There was a change of controlling shareholder of the Company in the middle of this year, and also the change Reorganisation and the sale and purchase of shares, representing approximately 74.3% of the entire issued share capital of the Company, on 20th June 2003 and 26th June 2003 respectively, Mr. Lau Kan Shan through his controlled corporation, Mexan Group Limited, has become the controlling shareholder of the Company. Details of the Group Reorganisation and the sale and purchase are contained in the Company's circular dated 10th April 2003 and the composite offer document issued jointly by Mexan Group Limited and the Company on 30th June 2003.

The Governments of the Hong Kong SAR and China entered into the Closer Economic Partnership Arrangement ("CEPA") in June 2003. Under the CEPA, Hong Kong professionals and business entities enjoy certain privileges to gain access to the China market and the same applies vice versa. It is believed that the CEPA will open up a new era for our economy.

To meet the increasing demand for hotel and other living accommodations in Hong Kong in the past months, the Board has decided to acquire an approximately 800-room hotel under construction from the Hutchison Whampoa group ("Hutchison") subsequent to the period end on 20th October 2003. The hotel is located in Rambler Crest, Tsing Yi and near the Hong Kong International Airport which is about ten minutes away by train from a nearby station. The hotel is designed for visitors to the Hong Kong Disneyland which will be open to the public in 2005. This transaction is strategically important as not only it will add a quality asset to the Group's investment portfolio which can produce a steady cash flow, but more important, the deal has brought in Hutchison as the strategic shareholder of the Company by the issue of shares of the Company as part of the purchase consideration. As a prudent initiative, the Group will enter into a management agreement upon completion of the sale and purchase of the hotel with the Harbour Plaza Hotel Management Limited which is a reputable hotel management company to manage the hotel for the Group as well as provide a minimum EBITDA guarantee of HK\$21,000,000 for each of the three years commencing from the date of the management agreement. The Board expects the hotel to benefit from the combination of a growing tourist flow and the ideal location of the premises.

As part of the consideration for the purchase of the hotel, the Company issued convertible notes for an amount of HK\$160 million to Hutchison and its nominee on 5th November 2003 whereupon the noteholders have the right to convert up to a maximum of 53,333,333 shares of the Company at the initial conversion price of HK\$3.00 per share, subject to adjustment, within three years from the date of issue.

Action is being taken to upgrade the floor plan of E-House, expecting to generate a higher level of rental income. Moreover, the Board intends to review the operation of the Group including the utilization of the cash balance retained with a view to enhancing its asset base and broadening its income stream by seeking further investments in synergetic or prospective business if there arises such opportunities, which the Board may think fit and are allowed under the relevant regulatory provisions.
