MANAGEMENT DISCUSSION AND ANALYSIS

Market Review

In the first half of 2015, the national economy has been running within proper range and the major indicators picking up steadily, showing moderate but stable and sound momentum of development. It is beyond doubt that the 7% growth in the domestic economy during the first half of the year did not come by easily. In the first half of the year, global economic recovery was slower than expected in general. Coupled with intensifying geopolitical conflicts and significant drop in commodity prices, global economic recovery has become increasingly unstable and uncertain. People are more optimistic about the Chinese economy for the second half of the year as the 7% growth in the domestic economy during the first half of the year is beyond their expectations.

Business Review

China Seven Star Holdings Limited (the "Company") and its subsidiaries (herein after together referred as the "Group") is principally engaged in trading of chemical materials, provision of consultancy services and insurance agency services in the People's Republic of China (the "PRC").

Amongst those three continuing businesses of the Group, only the chemical materials business contributed a minimal profit to the Group in the first half of 2015.

In order to enhance the Group's cash levels to meet the needs for its future development, on 22 April 2015, the Company, Group First Limited ("Group First", a substantial shareholder of the Company) and a placing agent entered into a placing and subscription agreement, pursuant to which Group First agreed to place and the placing agent agreed to procure not less than six placees to purchase 83,360,000 shares at a placing price of HK\$0.60 per share from Group First, and Group First agreed to subscribe new shares equivalent to the number of placing shares of 83,360,000 shares at a subscription price equivalent to the placing price of HK\$0.60 per share from the Company (the "Top-Up Placing"). The Group intended to use part of the net proceeds from the Top-Up Placing in the amount of approximately HK\$25 million for the acquisition of 10% equity interests in Shaanxi Bailianan Economy Development Company Limited* (陝西百聯安經濟發展有限公司) as disclosed in the announcement of the Company dated 30 December 2014, and the remaining balance will be applied for the development of a solar power business including but not limited to the cooperation with Shandong RealForce Group Company Limited* (山東潤峰集團有限公司). As at the date of this report, the Company has not utilised the proceeds raised from the Top-Up Placing.

* Management translation

The Company has been exploring vigorously new investment and business opportunities, and the Board (the "Board") of Directors (the "Directors") of the Company recently considered both real estate business and solar power business as sectors worth exploring. However, subject to further comprehensive assessment of the overall risk profile on these two business sectors, the Board has adopted a wait and see approach and will make a decision on whether to commence such businesses in the second half of 2015.

Also, the Board has been monitoring the market conditions of the financial service industry and related businesses. It is expected that such industry and related businesses have enormous positive potentials which will contribute long term benefits to the Group. Therefore, the Company has decided to tap into the financial service industry and related businesses and to position them as core business segments of the Group.

Given the Company's plan to expand into financial services sector and related businesses, it has entered into the YGD Agreement (as defined in the section headed "Material acquisitions and disposals of subsidiaries and associates") and Yuan Agreement (as defined in the section headed "Material acquisitions and disposals of subsidiaries and associates"). Under the YGD Agreement, the Group will acquire 100% of the issued shares of YGD Securities (HK) Limited. The core business of YGD Securities (HK) Limited comprises of securities brokerage and dealing, and it is also the holder of a Type 1 licence issued by the Securities and Futures Commission (the "SFC") under the Securities and Finance Ordinance (the "SFO"). Under the Yuan Agreement, the Group will acquire 100% of the issued shares of Yuan Asset Management Limited. The core businesses of Yuan Asset Management Limited comprise of asset management and research, and it is also the holder of Type 4 and 9 licences issued by the SFC under the SFO. The Company may apply a portion of the proceeds raised from the Top-Up Placing carried out in April 2015 to finance the proposed acquisitions.

The Group plans to use both YGD Securities (HK) Limited and Yuan Asset Management Limited as its initial platforms in establishing its financial services and related businesses. The intention is in due course to develop the Group to become an integrated security house offering sales and trading, corporate finance, discretionary and non-discretionary asset management, securities margin financing, principal investment with a focus on financial services and extending loan finance to suitable business using the Group's license under the Money Lenders Ordinance of Hong Kong.

In an effort to further implement this strategy, the Directors believe that it would create business synergies if the Company were to introduce prominent and reputable strategic investors who would be able to work with the Company to enhance its professional expertise in the financial services sector, to develop the pipeline of business opportunities in financial services sector and to accelerate the formation of a comprehensive financial services platform by way of identifying, evaluating and acquiring established financial institutions in Hong Kong and overseas.

In order to maximise the synergy, at the end of June 2015, the Company has entered into a subscription agreement with CMI Financial Holding Corporation and other investors by way of deed of accession to further accelerate the pace of tapping into the financial sector. The Board considers that the Company could expand new business and investment opportunities upon the completion of acquisition and share subscription, and could benefit from the valuable experience of CMI Financial Holding Corporation and other investors. The Group will be able to carry out further assessments and evaluation on the commercial feasibility of these business opportunities, as well as identify, recognise, capture and implement new opportunities for business development and diversification. Details of the acquisitions and the subscription are set out in the Company's announcement dated 27 August 2015.

Outlook and Strategy

CMI Financial Holding Corporation is a wholly owned subsidiary of China Minsheng Investment Corporation Limited (中國民生投資股份有限公司). China Minsheng Investment Corporation Limited (中國民生投資股份有限公司) is a large private investment company organised by The All-China Federation of Industry and Commerce in China and was launched by 59 well-known private enterprises throughout China with a registered capital of RMB50 billion. It is a conglomerate with a wide variety of businesses including equity investment, equity investment management, business consulting, financial consulting, industrial investment, asset management, and investment consulting. The Board considers that the introduction of strategic shareholders will bring in remarkable returns for the shareholders in the future.

Financial Review

For the six months ended 30 June 2015, the Group's unaudited consolidated turnover was approximately HK\$139,036,000, which represents an increase of approximately 364.2% from the same period of last year, mainly attributable from the trading of chemical materials.

The breakdown of the Group's turnover recognised in the unaudited consolidated statement of profit or loss was as follows:

For the six months ended 30 June, in HK\$'000

	2015	2014	Change
Insurance agency service income	3,998	5,789	-30.9%
Trading of chemical materials	135,038	24,165	+458.8%
Turnover	139,036	29,954	+364.2%

The Group recorded a gross profit of HK\$1,388,000 and a gross profit margin of 1.0% which is lower than the 1.2% of the same period last year and the gross profit was mainly generated from the trading of chemical materials.

The Group recorded a loss of approximately HK\$12,225,000 for the six months ended 30 June 2015 as compared with a loss of approximately HK\$18,759,000 recorded by the Group for the six months ended 30 June 2014. This is mainly due to the following reasons:

1. Turnover increased sharply as compared with the turnover of the corresponding period last year which resulted in an increased gross profit; and
2. There were allowances and write-off for inventories of approximately HK\$7,168,000 and trade receivables of approximately HK\$1,169,000 for the retail and distribution business (a business terminated by the Group since August 2014) for the six months ended 30 June 2014 but there was no such expenses for the six months ended 30 June 2015.

The Board did not recommend the payment of an interim dividend for the six months ended 30 June 2015 (six months ended 30 June 2014: HK\$Nil).

On 22 April 2015, the Company, Group First and a placing agent entered into a placing and subscription agreement, pursuant to which Group First agreed to place and the placing agent agreed to procure not less than six places to purchase 83,360,000 shares at placing price of HK\$0.60 per share from Group First, and Group First agreed to subscribe new shares equivalent to the number of placing shares of 83,360,000 shares at subscription price equivalent to the placing price of HK\$0.60 per share from the Company. Details are set out in the Company's announcement dated 29 April 2015.

The placing and subscription was completed on 5 May 2015, and net proceeds of approximately HK\$48,707,000 were received.

As at 30 June 2015, the Group has 50 employees (as at 30 June 2014: 38 employees). The employees are remunerated based on their work performance, professional experience and prevailing industry practices. The remuneration policy and package of the Group's employees are periodically reviewed by the Group's management. In addition, the Group adopts a share option scheme for eligible employees (including Directors) to provide incentives to participants for their contributions and continuing efforts to promote the interests of the Group.

Liquidity and financial resources

As at 30 June 2015, the Group's cash and bank deposits (include pledged bank deposits) amounted to approximately HK\$72,892,000 (as at 31 December 2014: approximately HK\$29,879,000). Other than as disclosed under the sections "Directors' Interest in Shares" and "Share Options" above, at no time during the period under review was the Company or any of its subsidiaries, or any of its fellow subsidiaries, a party to any arrangement to enable the Directors or chief executives of the Company or their respective associates (as defined in the Listing Rules) to have any right to subscribe for securities of the Company or any of its associated corporations as defined in the SFO or to acquire benefits by means of acquisition of shares in, or debentures of, the Company or any other body corporate.

CORPORATE GOVERNANCE

Compliance with the Code on Corporate Governance Practices of the Listing Rules

The Company's corporate governance practices are based on the principles and code provisions ("Code Provisions") set out in the Corporate Governance Code (the "CG Code") contained in Appendix 14 of the Listing Rules.

Throughout the period under review, the Company has complied with most of the Code Provisions of the CG Code, save for the deviation of the Code Provisions A.4.1 and E.1.2 which are explained below.

Code Provision A.4.1 stipulates that non-executive Directors should be appointed for a specific term, subject to re-election. None of the existing non-executive Director (the "NED") or independent non-executive Directors (the "INEDs") is appointed for a specific term. Although the NED and INEDs are not appointed for a specific term, the Company believes that as all Directors are subject to retirement by rotation and re-election at the annual general meeting at least once every three years pursuant to the Articles of Association of the Company (the "Articles"), such practice meets the same objective and is no less exacting than those prescribed under Code Provision A.4.1.

Under the Code Provision E.1.2 of the CG Code, the chairman of the Board should attend the annual general meeting and he should also invite the chairmen of the audit, remuneration, nomination and any other committees (as appropriate) to attend. Chairman of the audit committee, and members of remuneration committee, nomination committee and audit committee attended such annual general meeting. The Company considered that their attendance was sufficient for (i) answering the questions raised by the shareholders who attended the annual general meeting and (ii) effectively communicating with shareholders who attended the annual general meeting. The Company will optimize the planning and procedures of annual general meetings, give adequate time to all Directors to accommodate their work arrangement and provide all necessary support for their presence and participation in annual general meetings such that all Directors will be able to attend future annual general meetings of the Company. The Company reviews its corporate governance practices regularly to ensure compliance with the Corporate Governance Code.

The audit committee of the Company has reviewed the accounting principles and practices adopted by the Group and has discussed with the management, the internal controls and financial reporting matters related to the preparation of the unaudited condensed consolidated financial statements for the six months ended 30 June 2015.

MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

All the Directors of the Board have confirmed, following specific enquiries made by the Company, that they have complied with the required standard as set out in the Model Code throughout the six months ended 30 June 2015.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

1. Basis of preparation

These unaudited condensed financial statements have been prepared in accordance with Hong Kong Accounting Standard 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”) and the applicable disclosures required by the Listing Rules.

These unaudited condensed financial statements should be read in conjunction with the consolidated financial statements for the year ended 31 December 2014. The accounting policies and methods of computation used in the preparation of these condensed financial statements are consistent with those used in the consolidated financial statements for the year ended 31 December 2014.

The financial information relating to the year ended 31 December 2014 that is included in these unaudited condensed financial statements for the six months ended 30 June 2015 as comparative information does not constitute the statutory annual consolidated financial statements of the Company for that year but is derived from those consolidated financial statements. Further information relating to these statutory financial statements required to be disclosed in accordance with section 436 of the Hong Kong Companies Ordinance (Chapter 622) is as follows:

- (a) The Company has delivered the consolidated financial statements for the year ended 31 December 2014 to the Registrar of Companies in accordance with section 662(3) of, and Part 3 of Schedule 6 to, the Hong Kong Companies Ordinance (Chapter 622).
- (b) The Company’s auditor has reported on those consolidated financial statements. The auditor’s report was unqualified; did not include a reference to any matters to which the auditor drew attention by way of emphasis without qualifying its report; and did not contain a statement under sections 406(2), 407(2) or (3) of the Hong Kong Companies Ordinance (Chapter 622).

2. Adoption of new and revised Hong Kong financial reporting standards

During the period under review, the Group has adopted all the new and revised Hong Kong Financial Reporting Standards (collectively, “new HKFRSs”) issued by the HKICPA that are relevant to its operations and effective for its accounting year beginning on 1 January 2015. New HKFRSs comprise Hong Kong Financial Reporting Standards (“HKFRS”), Hong Kong Accounting Standards, and Interpretations. The adoption of these new HKFRSs did not result in significant changes to the Group’s accounting policies, presentation of the Group’s financial statements and amounts reported for the current period and prior years.

The Group has not applied the new HKFRSs that have been issued but are not yet effective. The Group has commenced an assessment of the impact of these new HKFRSs but is not yet in a position to state whether these new HKFRSs would have a material impact on its results of operations and financial position.

3. Segment information

During the period under review, as the PRC retail and distribution business did not meet the definition of an operating segment in accordance with HKFRS 8 "Operating Segment", its information is not presented.

Segment assets and liabilities of the Group are not reported to the Group's chief operating decision makers regularly. As a result, reportable segment assets and liabilities have not been presented in these condensed financial statements.
