Reasons for entering into the Deed

China has been enjoying high growth in the sports related market over the past number of years, particularly when 2008 Beijing Olympics is approaching. With the great success of the first China Open Tennis Tournament (in which over 300 leading tennis players participated) organized by the TML Group last year, the Directors are of the view that further increase in the shareholding of the TML Group will well position the Company to capture the growing value of the China Open Tennis Tournament and other sports related assets in the region. At the price earnings multiple of approximately 4.8 times with reference to the unaudited 2004 profit of the TML Group mentioned above, the Directors (including the independent non-executive Directors) are of the view that the transactions contemplated under the Deed, that at the same time settles the differences between Modern Perfect and Spectrum, are fair and reasonable and in the interests of the Company and its shareholders as a whole and in the ordinary and usual course of business of the Company and the terms of the Deed are on normal commercial terms. The total consideration payable under the Deed comprises the payment for the purchase of 40% of the issued share capital of TML, dividend distribution and remuneration and other payments.

The Company elected to sell the Transferring Companies to Spectrum as part of the corporate reorganization of the TML Group. With the transfer of the Thailand Operations to Spectrum, TML Group will focus its sporting business in China.

The TML Group is a profit making subsidiary of the Company engaged in hosting and organizing sports events in Asia (most notably the hosting and organizing of the annual ATP and WTA tennis tournaments in Beijing, namely the China Open Tennis Tournament).

The Transferring Companies are either engaged in the provision of services to the TML Group or the operation of sports events in Thailand.
